### TERRITORIAL APPOINTMENTS.

A Washington special to the St. Louis Globe-Democrat says: Hugh Brinker, of Warrensburg, Missouri, who was appointed Associate Justice of the Territory of New Mexico, to succeed Bell, was the selection of Coker L. Mr. Brinker was formerly prosecuting attorney for Johnson county, and has the name of being a good lawyer. The appointment has caused great uneasiness among Territorial aspirants and their friends, and it is a departure from the platform adopted at the Chicago Convention. Delegate Joseph, of New Mexico, looked forward with confidence to the nomination of Judge Warren, formerly of St. Louis, to the place, and his disappointment is great. It looks now as if the Territorial citizens who have come all the way here to obtain offices are to be ignored. Ex-Delegate Oury, of Arizona, has been here at least four months awaiting the time when he would be nominated to succeed Governor Tittle, and he is now quite uneasy. The Governorship of New Mexico is to be held for early in May, and it is not at all unreasonable to predict that the Territorial people will be even more greatly disappointed.

Col. R. W. Webb, of New Mexico, says that the President informed the Territorial delegations that the appointment of Mr. Brinker, of Missouri, to be Associate Justice of the Supreme Court of that Territory, could not be taken as a precedent for Territorial appointments. It seems there were eleven applicants for the place from New Mexico, and they were either identified with land or railroad matters, which precluded the selection of one of their number.

Judge Trimble, of New Mexico, it is thought will be made Governor of that Territory.

### REDUCED NEWSPAPER POSTAGE

Orders have been issued by the Post-office Department for the preparation of a new one cent newspaper postage stamp, which will be needed after July 1st, because of the law passed at the recent session of Congress reducing the rate on newspapers. The stamp is to be similar in design to the present series of newspaper stamps, ranging from two to ten cents. During the last fiscal year 47,240 tons of matter, subject to newspaper rates was sent through the mails from 5785 postoffices. The postage for the same amounted to \$1,899,592.14. This was an increase of nearly 11 percent over the preceding year. Allowing for the same increase in matter sent for the next fiscal year, it is estimated that the reduction to 1 cent per pound will result in a loss of over \$1,000,000 to the revenues of the Postoffice Department.

There are hundreds of good mines that have failed to yield a profit simply because they have been mismanaged. Ignorance, carelessness and bullheadedness have united to strew the wrecks of gigantic enterprises all over our rich country. Good mines, that might have been worked profitably almost from the grass roots under an economical and careful management, have been made to ruin financially those who have put money into them and are lying idle awaiting the time when experienced mining men shall discover their richness and purchase them for nominal amounts. There is nothing like good management in any business, and nothing that will bring ruin so speedily as careless and inefficient management. [Denver Mining Review.]

Mining in Colorado is even more dangerous than in other localities. The miners have not only to face the ordinary dangers of their risky occupation, but every now and then an avalanche of snow comes down on a mine and buries the unfortunate treasure hunters. The news comes from Denver that the searching party have arrived from Homestake mountain, having found ten bodies in the miners' cabin which was covered by an avalanche two weeks ago.

A late way of robbing letters is to select those bearing several stamps, and after removing which a slit is cut in the envelope and the valuables removed. The cut is then covered up and the stamps replaced. In letters containing money and bearing more than one stamp, the French government recommends, in an order just issued, that the stamps be placed on the envelope about one-eighth of an inch apart.

Up to this time the United States has been forced to depend for its supply of tin upon England and other foreign nations. This invaluable metal has recently been found in the Black Hill region, and there is enough of it in Dakota not only to supply this country, but the whole world for centuries to come. The tin in Dakota is richer and more easily mined than any other tin on the face of the globe.

The managers of the New Orleans Exposition and the residents of that city have concluded that there is quite a sum of money still in existence in the United States that has not yet passed into their hands, and they therefore propose re-opening the Exposition next October.

### A CANINE SEEKS SATISFACTION.

That the feeling of rivalry existing between the two horse companies of Prescott has not been confined by any means to the individual members of the two organizations, was strikingly shown last evening by an incident in which a pug dog of orthodox ugliness figured very prominently. The dog in question is the property of Billy Ryan, a prominent member of the "Toughs," and while that company was training for the firemen's race which took place yesterday, the canine displayed the greatest interest, never failing to turn out and run with the "maahoon," and of the large assemblage that witnessed yesterday's contest or of those who participated in it, none were excited more than the pug pet of the Toughs, and when the victory was awarded to their rival, the dog's cup of woe was apparently filled to overflowing, and in a manner that depicted the utmost chagrin and humiliation, he left the Park for home; to be followed, however, by the contemptuous jeers of amused lookers-on, - the most sarcastic of whom the dog evidently considered Mr. George H. Curry, a member of the Dudes Company. And in order to avenge himself on whom he regarded as chief tormentor, the canine at once repaired to Mr. Curry's jewelry establishment, and after deliberately surveying the field, sprang through an expensive pane of French glass which composed one side of the front door, and, before Mr. Curry's assistant could fully realize the situation, beat a safe retreat, with an air of triumph that spoke louder than words of his inward satisfaction in having, as he thought, fully retrieved the crushing defeat sustained by his master's company in their race with the Dudes.

The Postmaster General has issued a circular order to postmasters, explanatory of the changes made by Congress at their last session in the rates of postage. The postmasters are informed that on and after July 1st, the rate on all domestic first-class matter, including drop letters, at the letter carrier's office, be two cents per ounce, or a fraction thereof instead of two cents per half ounce. This change will apply to mail addressed to Canada, but not to other foreign countries. To provide for wants that may arise from the change, there will be a change also in second class matter, or newspapers mailed by publishers, from two cents to one cent per pound.

The Yaqui war, which is going on in Sonora, has been almost overlooked of late, in the multiplicity of stirring news from other quarters. It would seem that quite a respectable fight took place about the 31st instant between the Indians and Federal troops, and fifty or sixty were killed on both sides. There have also been a dozen skirmishes of less importance, but involving loss of life and destruction of property. A very serious situation exists in Sonora, and the Mexican Government will have no easy task to restore order and security.

Roller skating is not popular in England. About four years ago the craze struck the young people and rinks were built all over the country. The fever, however, was so brief that the investors in skating rinks lost enormously on their ventures, and roller skates disappeared from the land.

The Territorial press is a unit on the removal of the Indians. This question was exhaustively discussed two years ago, and without a single exception the press of Arizona strongly urged the policy of the removal of the Apaches to the Indian Territory. The fact ought to be presented to the present administration. [Tucson Star.]

The number of inmates in the Territorial prison has been materially increased during the last two weeks. Six members of Maricopa county, five Territorial convicts from the same county, and a Papago Indian from Pima county, have been made to ruin financially those who have put money into them and are lying idle awaiting the time when experienced mining men shall discover their richness and purchase them for nominal amounts. There is nothing like good management in any business, and nothing that will bring ruin so speedily as careless and inefficient management. [Denver Mining Review.]

### THE RACES.

The long looked for race, between the two horse companies belonging to the Prescott Fire Department, took place this afternoon at the Driving Park, and resulted in a victory for the "Dudes," who ran two hundred yards, laid one hundred and fifty feet of hose and connected with hydrant and nozzle in 30 seconds. The contest was a most exciting one, both Companies doing their utmost to win, and the "Toughs," in their hour of defeat can find solace in the fact that each individual member of their Company ran as he never ran before; but the "Dudes," like dandy runners that they are took the lead and easily kept it. On the close of the race the winning Company was presented with the prize silver trumpet, besides many floral offerings from lady admirers.

### CAPTURED.

Sheriff Mulvenon left for Kingman this afternoon in response to a telegram from Sheriff Steen of Mohave County, announcing the capture at that place of two men having in their possession W. W. Hutchison's mare and two horses, recently stolen at Phenix. Both men are Americans and deny any connection with the recent Wickensburg stage robbery. They will be brought to Prescott by Sheriff Mulvenon and tried here at the next term of court on the charge of burglarizing several cabins on Lynx Creek from which they took arms and other articles of value. After which they will be turned over to the authorities of Maricopa county to answer for horse stealing.

### ASH FORK BURNED.

As we go to press we are in receipt of a special telegram from Ash Fork stating that a fire started from that town shortly after noon to-day, which burned nine buildings to the ground, one being the military telegraph office. The fire destroyed what was known as Whisky Row, which included a hotel, several saloons and stores. The loss is estimated at \$15,000; no insurance.
